It may be necessary to accept a student for a trial period. After mid-term progress report, the transition team will reconvene to assess appropriateness of a trial period placement. If a student is not accepted, it may be because the ATP cannot provide the supports for the student to be safe in the community. When this occurs, the student is encouraged to stay in high school and continue to work on transition skills which are necessary at home, in the community, and on the job.

Attending the ATP program is a privilege. Policies of the Grand Forks Public Schools (behavior, attendance, dress code, positive participation) are enforced.
